HUDSON-- Beginning in June, the Pasco County Library System will offer E-Government classes to the public. Each day, more governmental forms are being put onto the Internet. Come learn how to access and fill out these forms.

The E-Government Computer Skills classes will teach you how to access government services online including Food Stamps, Medicaid, IRS forms and more. Classes are scheduled at each branch of the Pasco County Library System. Pick up your copy of the summer calendar of events for a complete listing of dates and times. Registration is requested for each of the programs.

The E-Government classes and the Pasco County E-Government Initiative have been funded in part under the provisions of the Library Services and Technology Act (LSTA), from the Institute of Museum and Library Services, administered by the Florida Department of State, Division of Library and Information Services.
