Pasco Animal Response Team (PART)
is looking for a few good volunteers to be part of the solution...

Contacts: *Eric Keaton, Public Communications Manager (727) 847-8129*
Adelaida D. Reyes, Director Community Services (727) 834-3258
Current as of: *May 13, 2008 2:30 p.m.*

NEW PORT RICHEY — Volunteers are needed to join a group that educates pet owners about how to prepare for disasters and is ready to respond to any emergency that includes animals. The Pasco Animal Response Team (PART) is a group that is trained and able to support the Emergency Services Function of Animals and Agriculture (ESF-17) during any animal-related emergency in the County.

PART volunteers are ready to educate the public about how to evacuate with a pet, what to do with horses before a hurricane, operate a Pet-Friendly Evacuation Shelter, set up a mass evacuation shelter for animals or respond to any local animal-related disaster when called upon by Pasco County Animal Services.

All PART volunteers receive training and credentials. For more information, contact PART at pascoanimalresponseteam@yahoo.com, and visit both of these websites: pascoart.googlepages.com and pascocountyfl.net click on “shelter pets.”
